

Lubrication & Oil Analysis Fundamentals Training

1-Day Educational Seminar

Course Instructors

Mr. Matt McMahon

CLS, Senior Data Analyst

In the past 13 years, Matt has reviewed over 600,000 analysis reports at TestOil. He is an STLE Certified Lubrication Specialist (CLS) and is a Senior Data Analyst.

For several years Matt has been responsible for developing and conducting these training events for TestOil. He has also hosted numerous customized webinars on oil analysis fundamentals and report interpretation. Matt has also worked onsite with many companies helping them turn their oil analysis efforts into world-class programs.

Matt holds an Associate of Applied Science degree in Automotive Technology and a Bachelor of Science in Geology with a minor in Chemistry. Before coming to TestOil, Matt worked in the automotive field both as a technician and instructor, and is a certified ASE Master Automotive Technician.

Heather Vercillo, OMA

Technical Operations Engineer

Heather Vercillo is the resident FTIR specialist at TestOil. She is responsible for determining the root cause of machine or lubricant failure through TestOil's MIA and DC test offerings. Heather is involved in the development and improvement of test methods, as well as maintenance and troubleshooting of laboratory equipment. She also plays a key role in ensuring TestOil's processes are meeting the scope of our lab's ISO 17025 accreditation.
